My name is Karin Kolland, I am a cosmologist, author and chairwoman of the Hanael Association for the promotion of healthy lifestyles. This morning the news reached me that a Styrian physician, Dr. Loibner is threatened with the withdrawal of his admission to his profession as a doctor by the General Medical Council, because he is very critical of the vaccinations. Since a few decades there are intensive efforts of very rich people behind the scenes to have total world control. The people on the street feel that much is wrong, but they do not know what's actually running behind the scenes.

When I saw the videos - the planned genocide - and interviews of Ms. Jane Buergermeister, I realized that it is now high time that every single human being needs to considere:

**"How important to me is my personal freedom?"**

**It is about much more than the swine flu and the vaccination**

It has already been tried with bird flu to create a fear propaganda that the humans agree to mass vaccinations. Mass vaccinations are very suspicious! I am not against all vaccinations and original researchers may have sought honestly for the benefit of people by developing medicine - but it is so nasty that the matter has now been turned.

**Now vaccine is not developed for the benefit of the people, but to manipulate people!**

These manipulations are of chemical substances, this are chemical weapons - before there were guns and bombs that have threatened us and in some countries is still working so brutally. But the much more subtle, because for the people not visible danger comes from the chemical side comes through our chemically contaminated foods and through genetic manipulation.

**The aspirations of a certain group strives for total world control and world power, which we know from our spiritual sources since the 1980s with certainty to enslave the people!**

We feel it already: 80% of the world work for 400 super-rich clan! Such family clan and their henchmen now have more than 80% of world wealth.

I think that can not be! The redeployments are not correct!

It is through brutality, harshness and proceeded absolute ruthlessness manipulated by political leadership. Most politicians sleep and have no idea what is really going on, or they are members of organizations, are purchased, receive benefits and are willing to play the game!

**Bilderbergers and various secret meetings, because the abuse of power will be served!**

But, these people must take responsibility for what they do and the setback will come to these people, we know from the spiritual world. But the reaction only comes if the population wakes up and every single person is aware of his freedom!

**People wake up! Come in for your freedom.**

Today I lit some candle, because it is so important that every single person gets aware in his inner knowledge and evokes its cellular light, the divine light in our own hearts and in your own body.

**Each cell has a light, every cell has awareness, we are born with a healthy immune system!**

**It is so insidious and so sneaky and mean, now women, pregnant women and small children who are most vulnerable in our community with very questionable vaccines to vaccinate as guinea pigs.**

This is very similar to the methods in the 2nd World War! Then you have people deported and now it will not take long, because if we do not defend ourselves now, we have compulsory vaccination! Then the world has been transformed not only into a casino and one roulette table, where we will be ripped off, but we will still be like in a concentration camp robbed of our self-determined safety and freedom!

**Then we can not determine about our food and not about our health, or which path to recovery, we want to go because the doctors who work holistically and are critical to obtain profession!**

And when people who work in the alternative field, are marginalized and maligned.

**People wake up, it's about our freedom!**

Every man must have so much courage to stand up for his own freedom in a peaceful manner! If it's too late, what we want to do then, if the laws are decided and and the military march up?

**I appeal urgently to reflect on**

And may I say a background to address:

It has already been tried by bird flu to trigger a mass panic - to adopt about pandemic Level 6 new laws against the freedom of man.

Note: this names "bird flu" are very conscious choice! Bird stands for freedom. Bird flu reaches ide freedom, but that is manipulated and the people are to be clipped wings.

Thank God that failed in the bird flu.

The bird is a powerful symbol and emblem of a great many countries (for example, as an eagle) and stands for sovereignty and freedom of the individual countries, states and nations. It was an attack on the sovereignty of states.

I am also confident that the pharmaceutical companies with the swine flu do not manage to put people into such a panic so that they can control them blindly.

This word swine flu is so perfidious! At the beginning of the virus had been identified as Mexican flu since the first cases emerged in Mexico - but it was not the exactly same virus, which was then smuggled out of the lab to deliberately infect people - like Ms. Jane Buergermeister says it. One has then spread worldwide via the media that word swine flu because this group is hungry for absolute world power, stoking a division between Christians, Muslims, and Muslims. (Where people argue, there are more rights for control and military!) The majority of the general population of Christians, Jews, Muslims, is willing and able to live together peacefully!

How we will know, the religion of Islam, renounced the pork; swine flu, the concept is therefore as perfidious, because since the Moslem population tries to unsettle and unconscious rejection of pig to perform exploits Arab region might also be easier on you to!

As we know the religion of Islam, renounced the pork. The term swine flu is therefore as perfidious, because they are trying to unsettle the Moslem population by exploiting their religious rejection of the pig! It also aims at total control of the Arab countries by means of medical and chemical manipulation. Also in the Jewish religion, the blood has a big role in the kosher meat. And for christianity the holy blood is of great importance. Battles, blood and sacrifice (sacrificial lamb) are as deeply religious themes still rooted in the people and it is so mean to manipulate people so insidious about these issues!

Now get over the word pig flu such a perfidious power over people, that's really nasty and mean! This word swine flu is an urgent need to transform! That can not be true that with in such a sneaky kind people are you tampered!

**I hope we are smart enough to not fall prey to these strategies!**

And there's a good reason not to get vaccinated and that is also fear!

One fear is the fear of contagion and the other fear is that we end up worldwide in the concentration camp where no individual freedom is there, where man is just a number, and where no one is taking care of what serves their individual well-being!

I work in an area where I try to strengthen the self-healing and awareness of the people.

I work with Reiki and spiritual energy. And we know that it is so very important to recognize that in and the same problem, or one and the same disease may have very different causes behind it. And therefore quite different methods of healing are necessary.

That is very individual. Now if we shave the people wide - and I say this deliberately cruel word, because it is being made by a medical lobby that refuses to work holistically and for the benefit of mankind

**If we are only numbers and is no longer seen what serves the best interests and welfare of the individual really if it is driven over all the same way, then is it no one's salvation.**

And the intent behind organizations that are trying to do now so strong have the tension to bring Justice and Politics in front of their carts. The newspapers and television have already been firmly given in the hands of the negative propaganda. Those people who do that are disrespectful to the dignity and freedom of every individual.

**Steer clear of the pregnant woman, hands off the children, keep your hands off our freedom! For that I am currently in public and worldwide! And All Angels are with me.**

Namstè, please excuse my holy wrath. Let's speak a prayer. We are all together on this planet earth, let us all join hands with and I bless even those who are now so blind and try to enforce domination and power to the whole world with such nasty methods: I bless you and I send you all my love, it is to prosper you. But, also like all those people whose freedom is threatened by you, now to be strengthened and remember their inner light and the selfhealing power! In what God we believe: Allah, Buddha, Christ, the Great Spirit ... it's all good! In each of us the same universal energy swings, and we all breathe the same air, and the same breath.

Let us join hands with. Thanks
